Only trust your heart

Lisa Wahlandt, Mulo Francel

Never trust the stars when you're about to fall in love
Look for hidden signs before you start to sigh
Never trust the moon when you're about to taste his kiss
He knows all the lines and he knows how to lie
Just wait for a night
When the skies are all bare and then if you still care
Never trust your dreams when you're about to fall in love
For your dreams may quickly fall apart
So if you're smart, really smart
Only trust your heart
Just wait for a night
When the skies are all bare and then if you still care
Never trust your dreams when you're about to fall in love
For your dreams may quickly fall apart
So if you're smart, really smart
Only trust your heart
Only trust your heart
