How Could I Lose

James Yuill

I can hear my heart beating
In my head as I close my eyes at night
Empty sounds on my pillow
Empty words that repeat throughout the night

How could I lose?
This has to be the best thing I could choose
How could I lose to you?

The rain falls hard on my window
I can feel the pain receding now
Close my eyes and I'm with you
Keep them shut till you see those floating stars

How could I lose?
This has to be the best thing I could choose
How could I lose to you?

I have strength when I'm with you
I have strength but my arms can't hold you up
From the water when I'm drowning
Like they said I would always drag you down

How could I lose?
This has to be the best thing I could choose
How could I lose to you?
