

I Remember

Mr. Cheeks

Advisory - the following lyrics contain explicit language:

Whoever thought this a happen?
Hey yo, that bum nigga rappin'
Took it the top, now I won't stop
I remember bein' broke 'cause if I didn't nigga
I'd be frontin', reminisicin' where your nigga at? Ain't nuthin', never thought about the hot outfits
Jewelry or the celly, back then we was in the skelly
Shorties with the barrettes, candy in the bag
The handgun, remember when we shot the fair one? A nigga like me had the motherfuckin' pro players
And my Lees on, for a nickel got my squeeze on
Fly balls off the wall in the schoolyard
Swear to Gods, got my first quickie in school garage I remember those days
You and I gettin' paid
Now we got it made, oh yeah
I remember, I remember Aiyo, we open gates and let the dogs chase us home after school
Until my nigga Skee got bit, yo, but that was cool
We took him to the crib, we laughin', growin' up
We drinkin' liquor on the stool while he throwin' up We runnin' from school security, besides that the 102 cops
Yo, the man was my grandpops
He used to air me out
He never tried to even motherfuckin' hear me out
No punishment but here we out We back at it again, me and my men
Yo, what was realest when us niggas [unverified]
And all we wanna know, does anybody fuckin' care?
And why this trouble follow me every fuckin' where? I remember those days
You and I gettin' paid
Now we got it made, oh yeah
I remember, I remember [Unverified] Aiyo, we used to hot wire cars
Bragged about the scars we collected
Tryin' to escape from them older guys up at the bars
They never let us bang, let's act [unverified] We knew they had a crew but yo, our crew was thick
Okay, now we graduated from junior high
We into badder bitches, caine, getting money yo, we livin' fly

We got the Jordan and ball, we got the weed and all
When Chris died yo we felt there was no need to fall We seen it all from welfare lines
All them good and bad times
Back then I wish I had rhymes
I got my childhood name from my wild hood
Sling still, as though it was a good thing I remember those days
You and I gettin' paid
Now we got it made, oh yeah
I remember, I remember I remember those days
You and I gettin' paid
Now we got it made, oh yeah
I remember, I remember I remember those days
You and I gettin' paid
Now we got it made, oh yeah
I remember, I remember
