

# Light Of The Dreamer

Alexandra Burke

They were coming  
Right at us  
I was running  
You were scared  
I was happy  
I was smiling  
Cause I knew  
That between me and you  
We had the upper hand  
They were aiming  
We were too  
When you're running  
Like we were, it's hard to shoot  
I ran out and so did you  
So I pulled something new  
Out of my jacket  
They step back and  
Got on the ground, laid down  
They started covering their eyes  
'cause it was too bright  
Told 'em  
"Get on the ground", they laughed  
Through the light in the crowd  
[CHORUS]They've never seen the light of the dreamer  
It turns the cold into a believer, oh  
The light of the dreamer  
Pain comes out just so like a sin hurts  
Now I'm a screamer  
Ain't there no way in the world  
You can find her up  
The sun only coming down 'cause you need it  
You've never seen the light of the dreamer  
No, you need it  
No, don't run, don't run  
No, don't run from the light of the dreamer  
Catch your light on  
Don't run, no, don't run  
From the light of the dreamer  
Now they're with us

There are difference  
Let the light out  
Like 'em spreading  
I can feel it  
They see dreams they've never seen  
Cause their eyes are not concealed  
Raising up their hands, oh  
We're the army  
Lovin' fighters  
Leave them bright  
We got the light  
Don't need a lighter

I'm ready, and so are you  
Knowing I was something new  
Yeah, we're crackin'  
No turning back now  
That they are on the ground, way down  
They started covering their eyes  
'cause it was too bright  
Told 'em  
"Get on the ground", they laughed  
Through the light in the crowd  
[CHORUS]They've never seen the light of the dreamer  
It turns the cold into a believer, oh  
The light of the dreamer  
Pain comes out just so like a sin hurts  
Now I'm a screamer  
Ain't there no way in the world  
You can find her up  
The sun only coming down 'cause you need it  
You've never seen the light of the dreamer  
No, you need it  
No, don't run, don't run  
No, don't run from the light of the dreamer  
Catch your light on  
Don't run, no, don't run  
From the light of the dreamer  
Lovin' fighters  
Leave them bright  
We got the light  
Don't need a lighter  
We don't need a lighter  
Got the fire  
We survived

Don't need a light  
We livin' brighter  
Don't need a lighter  
Don't need a lighter  
Never seen the light of the dreamer  
It turns the cold into a believer, oh  
The light of the dreamer  
Pain comes out just so like a sin hurts  
Now I'm a screamer  
Ain't there no way in the world  
You can find her up  
The sun only coming down 'cause you need it  
You've never seen the light of the dreamer  
No, you need it  
No, don't run, don't run  
No, don't run from the light of the dreamer  
Catch your light on  
Don't run, no, don't run  
From the light of the dreamer
