BTK

El Obo

We decay in the midst of what was lost
And with what we all consider cost these days
And I refrain from the goriest part
I?d rather lead you to the heart
If it?s all the same
As we decay

And BTK isn?t out there now
Wandering around Wichita
And honestly I can?t say that that?s okay
To say I?ll see another day
Now try to sleep
Tell me what you read
Is it just a kiss that brings pain to pain(?)

And the next couple days
Were the best times
Don?t let it run out
If it?s all the same

And maybe that day
Let the cops misunderstand
The severity of this hand
And the day turned into corpses
And in a different way
It?s still the same
