

# Mosquito March

## Midnight Oil

When they march  
When they march over fields of green  
When they march  
When they march over fields of green  
When they march  
When they march over fields of green  
Walking in the wilderness  
No future to the question  
You might get a simple answer  
Get a simple answer  
Walking in the wilderness  
You're naked, now just skin and sand  
You'll get a smile answer  
Get a smile answer  
See the king, see the king of happiness  
See the king

See the king of happiness in the light  
In the light you can see him crawl  
See the king, see the king of happiness  
Walking in the wilderness  
No future to the question  
You might get a simple answer  
Get a simple answer  
Walking in the wilderness  
The endless distance  
You don't need to get a smile answer  
Get a smile answer  
Past the point of no return  
You're like a dog without a bone  
So get a simple answer  
Get a simple answer
