Separate

Sebadoh

I've given up on giving up
It's not all as it seems
I missed some of the words
But that is always happeningNone of this can be your fault
No need for guilt here not at all
Suffering that cones to you
There's really nothing you can doNothing left to do / What is this you you talk about? / Define the "I" that you speak from::Go easy, settle into the scene
::Honey I'll never know what you mean
SeparateWhat is it now what it was then
This is what we do to friends
Oh monkey mind you jump around
Tap your foot to the soundWalking deep into the woods
Not feeling very good
I never have been home
I've given up on giving up::Go easy, settle into the scene
::Honey I'll never know what you meanSeparate
