

Crashin (Feat. Tracey Clark)

Jack's Mannequin

I wanna hear some music
Now that they're drivin' us all underground
Not the radio music, or their satellites singing this
In this town
In this town I wanna hear some music
And with the rock stars all flicker and fade
Powder radio music
I'm a ghost over ground on
On parade[Chorus]
And even if your voice comes back again
Maybe there'll be no one listening
And even if I find the strength to stand
It doesn't mean I won't go missing
And the world come
Crashing I wanna hear some music
I have been waiting down here for so long
Trying to write this big music
With your breath in my face but now
But now you're gone[Chorus] And the whole world comes down, downwards
And all the water on this broken town
The freeways just like veins without a heart And the world just comes
Crashing
And the whole world comes
Crashing
And the whole world comes And even if my voice comes back again
Maybe there'll be no one listening
And even if I find the strength to stand it
Doesn't mean I won't go on[Chorus] And the words will come
Crashing
And the music comes
Crashing
Down on me
Down on me And the words will come
Crashing
And the words will come
Crashing
Down on me Soaked down on me
Down on you
