

3 A.m.

Andre Nickatina

[Chorus 1] I'm a pick you up at 3 when you hear me blow my horn, bump bump bump bump bump, bump bump
bump bump bump, bump bump bump bump bump.....

I'll be sippin on Hennessy hit the weed in the cup could you come come come, could you come come come,
could you come come come

[Verse 1] 3 double O AM she step into my x-5 beamer

You should have seen her

With a rubber perfection you can put it in a section with Janet Jackson
or Little Kim.

The chemistry was up to satisfaction

With a magnificent ark spark bringing flame like a arsons

I locked the door and drove off and I drove off kind of slowly

Cause the popo's always rollin'

And this is what she told me, she put her lips to my ear move closely

When we got into traffic she indicated what she working with and put her
lips around my LORD HAVE MERCY

I drove and watch, I watched and drove, I sip my hen, I smoke my dro..
shit In between conversations she was like....she was like...

oohhh oohh ooh oh oh ooohhhh

You already know, she was already blown, she was already gone

She was already sprung gone with her tongue uh huh uh huh

[Chorus 1][Chorus 2] Late at night all alone dream of you in those thongs,

girl I wake up in the morning

Gotta have you cause I'm horny

I feel you on top of me, baby girl gone and pop for me

I like the way you moan girl don't you know you got that fun girl

[Verse 2] I'm on the phone talking to Miss Sue

I don't wanna pump till the bottom white bloom

Tip top game all the things you do

Never tease me, I'll never tease you

Baby want to come at 3 AM

She giving me the keys to the new B-M

Plus she giving me and you won't see him

And she giving me when you do see them

Pick up the phone then arrive at the door

She came out and the white touched the floor

Gotta lay back cause the rain goin pour

Hope for the shade make it one night more

Looking like a diva with the queens on tour

I belong she's allmo
In the bedroom now its time for sex
Anything goes you can walk like mex
After making love and I will not jet
Up and down and around we go
I can feel her nails when she scream below
I'm a real pimp see I still gotta go
Some get pussy and they still don't know
[Verse 3]No no no no no (see)
Yeah yeah yeah yeah yeah (be gone)
No no no no no (see)
Yeah yeah yeah yeah
Now throw yo half
Put back on the things you ask
You the man
when it's double dare I'm L I'm L
It really didn't matter too much to me
If he...didn't want you to ride with me (mmm)
But why would it matter when you're his girlfriend (mmm)
But your passing the Hennessy...oh babe
[Chorus 1] (x2)
[Chorus 2]oohhh oohh ooh oh oh ooohhhh
oohhh oohh ooh oh oh ooohhhh
