Enjoy

Wassup?

Ha ha haI wake up 7 a.m. 'bout time we do it again

Sunshine today, I better make plans

'Cause it rained yesterday but that was okay

Can't complain, I love it either wayLiving every day like it's my last

I refuse to be stuck in the past

People actin' like machines

'Cause they're scared to live their dreams

No, not meI just enjoy and celebrate, enjoy the love we make

Enjoy, appreciate, enjoy

Just keep on doing it 'til my heart's content

And enjoy when someone smiles, enjoySo just enjoy the simple things, enjoy the day life brings

Enjoy the song love sings, enjoy

Just keep on doing it 'til your heart's content

And enjoy the gift of life, enjoyIf you wanna find your paradise do it now never too late to try

Lose your inhibition let your inspiration set you freeAnd just enjoy and celebrate, enjoy the love we make

Enjoy, appreciate, enjoy

Just keep on doing it 'til my heart's content

And enjoy when someone smiles, enjoySo let's enjoy the simple things, enjoy the day life brings

Enjoy the song love sings, enjoy
