

I'll Fall Apart

Morcheeba

Time wasted
Looking out something that never was to be
Other loves that we've taken
Knowing all along
That it could've been you and me
It could've been us, all along
It should've been us all along
Don't say that it's too late
I'm afraid that it's too late
I'll fall apart
I know you feel the way that I do
I can see it hurt you bad
I think we got a good chance to make this
Something that could last
Let's try to get together
I don't wanna take another chance
We should really try to get together
Let the past be the past
