

# The Sun Shines From You

## Teenage Fanclub

Even when the world is grey I go where I wanna go, I'm okay  
Rainy skies don't cloud my mind  
I do what I wanna do, do what I wanna do  
I don't know anything but I say what I wanna say  
Say what I wanna say Know that I want you  
The sky in my mind is always blue  
In my world the sun shines from you Often I know I don't see the waves of love that wash over me  
Your love is a paradigm for a man  
Just looking for the next cheap rhyme  
Visualizing paradise is a thing I don't wanna do  
A thing I don't wanna do But I know that I want you  
The sky in my mind is always blue  
In my world the sun shines from you Life traces the line in space  
Between what's gone and what's gonna be  
Time chases me, my mind races  
To find the place where I wanna be The sky in my mind is always blue  
In my world the sun shines from you  
Know that I want you  
Know that I want you
