Blue Blood

Laurel

Advisory - the following lyrics contain explicit language:

Blow it up
Let the horses run
I used to kill for fun
We're filthy rich
Sitting on the tail end of loveYou woke me up
For your blue blood
Made me come undone
Can't believe you've been here the whole timeTo nice, to pass you by
I can't believe, you been here the whole timeCHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart
You made me feel again
After the last time
Didn't think that I could loveLiving by the sea
No one could set me free
Before you came to me
I was in the pretty darkness
Praying for the endYou're so sugar sweet
So easy to make you fall
Hell for leather hell for sure
Always adore and endure i will love youTo nice, to pass you by
I can't believe, you been here the whole timeCHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart
You made me feel again
After the last time
Didn't think that I could loveCHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart

You made me feel again
After the last time
Didn't think that I could love
