

Blue Blood

Laurel

Advisory - the following lyrics contain explicit language:

Blow it up
Let the horses run
I used to kill for fun
We're filthy rich
Sitting on the tail end of love You woke me up
For your blue blood
Made me come undone
Can't believe you've been here the whole time To nice, to pass you by
I can't believe, you been here the whole time CHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart
You made me feel again
After the last time
Didn't think that I could love Living by the sea
No one could set me free
Before you came to me
I was in the pretty darkness
Praying for the end You're so sugar sweet
So easy to make you fall
Hell for leather hell for sure
Always adore and endure i will love you To nice, to pass you by
I can't believe, you been here the whole time CHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart
You made me feel again
After the last time
Didn't think that I could love CHORUS:
You made me feel again
Made me dance circles
Round the pieces of your heart

You made me feel again
After the last time
Didn't think that I could love
