

# The Fad of the Land

## Newsboys

I'm a marinade  
Of what's hot this summer  
I'm an early comer  
Bought a gulf war hummer Every fad I feel it's force  
Every trend I do endorse  
Got my genome mapping  
Caught my smart dog napping I'm charging up the new, new thing  
I'm answering a customized ring  
I'm starting from the place you stop  
I'm packing for an ego trip, hop Stop the scam you day traders in a traffic jam  
Can the craze all you players outta plays  
Fight the man all you suckers for a better brand  
They got us living on the fad of the land Get your pager on  
'Cuz you know my number  
I'm a wireless wonder  
Got thumbs of thunder I'm charging up the new, new thing  
I'm answering a customized ring  
I'm starting from the place you stop  
I'm packing for an ego trip, hop Stop the scam you day traders in a traffic jam  
Can the craze all you players outta plays  
Fight the man all you suckers for a better brand  
They got us living on the fad of the land Soul daddies in a fire wire tumble dryer  
Soul mamas broke the breaker  
Soul children packin' Prozac pacifiers  
Get your plug-in we all need to plug in to our maker I'm messing up the new, new thing  
I'm answering a customized ring  
I'm starting from the place you stop  
I'm packing for an ego trip, hop Stop the scam, can the craze, fight the man  
They got us living on the fad of the land Stop the scam you day traders in a traffic jam  
Can the craze all you players outta plays  
Fight the man all you suckers for a better brand  
They got us living on the fad of the land  
They got us living on the fad of the land  
They got us living on the fad of the land
