

Surviving

Powderfinger

I'll stand at your shoulder
I'll keep you running right
Keep you running right I'll fight in your corner
I'll stay by your side
I'll stay by your side There's no need now to worry
Our love's still here tomorrow There ain't no use in crying
For what's keeping us divided
Baby, we're still trying, we're still trying We're too old to worry
About who's wrong and who is right
Is all so by and by People need a villain
Someone to pay the price
It keeps them satisfied There's no need now to worry
I'll still be here tomorrow There ain't no use in crying
For what's keeping us divided
Baby, we're still trying, we're still trying Baby, we're still trying
Baby, we're surviving
