

# Matrix Slave Ship

[Azizi Gibson](#)

What's your recipe? Can't get that for free  
A catastrophe, is what's happening, if it ever leaks  
We gon' need to speak, want the world of me, that's a travesty  
What a tragedy, why you mad at me? Fuck with me  
You'll lose your sanity, tryna deal with me, can't you see  
This your fantasy, let the shit just be, you and me  
Prehistoric, bitch, fuck your boring shit  
You ain't shit, let me pour the fifth, I was born the fifth  
And I told the kid, now I'm on the shit, that's just how it is  
When you focusing, you start honing in, you just gonna win  
You bring out your Zen, then you bringing ends, and your friends  
Hold on to this stance, it's gon' help you at the very end  
When I blow up, when I blow up  
Yeah, I will take another ride  
When I blow up, when I blow up  
You and I, we gon' take another ride, in my  
When I blow up, when I blow up  
Ok, ok, when I blow up, when I blow up  
You and I, we gon' take another ride, in my slave ship  
Imma show you how to shine in the matrix  
Yeah, when I blow up, when I blow up  
Ok, ok, when I blow up, when I blow up  
You and I, we gon' take another ride, in my slave ship  
Imma show you how to shine in the matrix  
You and I gon' get this money, you and I ain't gon' die from nothing  
Imma live a long life and love it, Imma be up all night just hustling  
I'm too hard and I fade them on the spot, lay them on the dot, leave a note and ride  
Heard they got the drop, fuck them and the cops, pull up on the block, now we in the spot  
Safe from all the ops, headed to the top, got them on lock, I should take a shot  
I just letter art, metaphor alert, rappers in the dirt, that's why we popping purps  
That's why a nigga gotta get his money  
And everybody tryna hide from me  
When I blow up, when I blow up  
Ok, ok, when I blow up, when I blow up  
You and I, we gon' take another ride, in my slave ship  
Imma show you how to shine in the matrix  
Yeah, when I blow up, when I blow up  
Ok, ok, when I blow up, when I blow up  
You and I, we gon' take another ride, in my slave ship  
Imma show you how to shine in the matrix
