

Don't Take It Personal

Monica

It's just one of them days, when I wanna be all alone
It's just one of them days, when I gotta be all alone
It's just one of them days, don't take it personal
I just wanna be all alone, and you think I treat you wrong I wanna take some time out to think things through
I know it always feels like I'm doing you wrong
but I'm so in love with you
So understand that I'm only in love your the only one I need
So have no thought that I want to leave and baby trust me please Just one of them days
That a girl goes through
When I'm angry inside
Don't want to take it out on you
Just one of them days
Don't take it personal
I just wanna be all alone
And you think I treat you wrong Don't take it personal
Baby baby baby baby, don't take it personal I see and I think about every thing we do
And I find myself in myserly and that ain't cool
Hey now, I really want to be with you the whole way through
But the way you make me feel inside keeps me confused
As I swing back from mood to mood it's not because of you
I never want you to be insecure,
so won't you understand that I'm only in love, your the only one I need
I'll be there for you when you need me boy, so baby don't you leave Just one of them days
That a girl goes through
When I'm angry inside
Don't want to take it out on you
Just one of them days
Don't take it personal
I just wanna be all alone
And you think I treat you wrong Just one of them days
That a girl goes through
When I'm angry inside
Don't want to take it out on you
Just one of them days
Don't take it personal
I just wanna be all alone
And you think I treat you wrong Don't take it personal
Baby baby baby baby, don't take it personal
Don't take it personal, yeah , don't take it personal Just one of them days

That a girl goes through
When I'm angry inside
Don't want to take it out on you
Just one of them days
Don't take it personal
I just wanna be all alone
And you think I treat you wrong
Don't take it personal baby
Personal baby, personal baby, personal baby
personal baby, personal baby
