

# Emergency

## The So So Glos

Marky lived in your old wheelchair  
Across the street from the house where we grew  
Jesus lived on Sylvia's island  
Georgy lived on Riker's, too And my baby she laid  
In front of the subway train I don't mind whatever  
I'm from whatever land  
Just a road, I'll find it  
I will never understand why  
Y'all still went like some old fiend  
And why grandma jumped from the??  
In my blue jeans I don't mind whatever  
I'm from whatever land  
Just a road, I'll find it I don't mind too much these days  
Hating change  
I'm rescuing, this is an emergency  
This is an EMERGENCY  
This is an EMERGENCY We all lived in that old wheelchair  
Across the street, just across the street  
Oh, my baby, she laid in front of a subway train  
Hey, this an EMERGENCY I don't mind whatever  
I'm from whatever land  
Just a road, I'll find it
