Bonfire

Lamb

Have you ever wondered why those days exist
When life just seems to be a conspiracy against you?
I don't know where the answers lie
But I try not to get hung up on the questionsAnd I burn like a good bonfire
In whatever I do
I burn like a good bonfire
And I know I'll come throughThe time is long overdue for us cleaving all of our souls
We all get so complicated in our livesWhen walking just walk
When sitting just sit
When being just be
Above all don't stray from your chosen pathBurn like a good bonfire
In whatever you do
Burn like a good bonfire
And I know you'll come throughBurn like a good bonfire
In whatever you do
Burn like a good bonfire
And may peace come to youThe time is long overdue for us cleaving all of our souls
We all get so complicated in our livesBurn like a good bonfire
In whatever you do
Just burn like a good bonfire
And I know you'll come throughBurn like a good bonfire
In whatever you do
Burn like a good bonfire
And may strength flow through you
