

Shuggie

Foxygen

I live in the palm of your hand, down the stream, sea
Get the flowers off the floor and drinking tea But you dont love me, thats news to me I met your daughter the
other day, that was weird
She had rhinoceros shaped earrings in her ears
But, hey man have a soda, its on the house
Remember what I told you, about the rumors inside this house But you dont love me, thats news to me
Thats news to me, thats news to
I begin and I begin, and If you believe in yourself you can free your soul
My heart is break into 2, I dont know what to do But you dont love me, thats news to me
Thats news to me, thats news to
I begin and I begin, and If you believe in yourself you can free your soul
My heart is break into 2, I dont know what to do
You were right for the words, you make it too loose
Im happy if shes happy
