

# International Music

## Evison Matafale

This is for real!

I took my friend!

to a rasta home.

I made mistake!

(But it was not my fault)

He complained!

The boys played all reggae.

They did hesitate!

but say this to him

(Refrain)

We play international music  
because we know what we want!

cause international movement.

to Africaa!

We play international music

because we know we want

cause international dance!

in Africaa!

We play international music  
because we know what we are for!

spark international business.

in Africaa!

They went on saying

reggae music

the mother of sound

of Africa

but they respect

traditional music

but something for

free whole continent

We play international music  
because we know what we want!

cause international movement.

in Africaa!

We play international music  
because we know what we want!

spark international business  
in Africaa!

Respect traditional music  
because we know what we are !  
Make our national identity  
Musicaa!

They went on saying  
haile selassie I!  
Is the king  
of all black race  
and africa !  
must unite  
if needs!  
to be free one day  
If we snore!,  
snore and snore again  
then i cant smile !  
we got too much to do

We play international music  
because we know what we want!  
cause international movement.  
in Africaa!

We play international music  
because we know what we want!  
spark international business  
in Africaa!

We play international music,  
because we know what we want  
cause international dance!  
in Africaa!

We play international music  
because we know what we want!  
cause international movement.  
to Africaa!

Respect traditional music  
because we know what we are !  
Make our national identity  
Musicaa!

Respect traditional music  
because we know what we are !  
Make our national identity

Musicaa!

We play international music  
because we know what we want!  
cause international movement.  
to Africaa!

We play international music  
because we know what we want!  
spark international business.  
to Africaa!

We play international music  
because we know what we are!  
cause international business.  
in Africaa!  
(music fades)

Respect traditional music  
because we know what we are
