Retribution

The Planet Smashers

Retribution. No change, victims of their action
Retribution. In fear, they failed to realize
They did not consider
That we should not be afraid
No I will not be afraid
Of their rage and their power
When we're offering alternatives
How could this be misunderstood?
No notions of a comprimise
They save themselves to save us all?Looking back will be clearer
They took the wrong turn, they took the wrong turn
Looking back will be clearer
They took the wrong turn, they took the wrong turnThey did not consider
That I will not be concerned
No I will not be concerned
Of their rage and their power
When we're offering alternatives
How could this be misunderstood?
No notions of a comprimise
They save themselves to save us all?Looking back will be clearer
They took the wrong turn, they took the wrong turn
Looking back will be clearer
They took the wrong turn, they took the wrong turn
Looking back will be clearer
They took the wrong turn, they took the wrong turn
Looking back will be clearer
They took the wrong turn, they took the wrong turn
Looking back will be clearer
Looking back will be clearer
Looking back will be clearer
Looking back will be clearer
Looking back will be clearer
