Baby Dracula

Scarling.

Stop your nonsence my dear
I know you need attention,
So slash an artery.....
You are so transparent,
can't see your own reflection...
you look the same to me.Now let go...This beating of my heart
it fell to peices,
eaten cold....
He never did what was told...
This baby sucked me dry
He failed to make it turn to stone
he took his blood and he went home...baby dracula, a baby dracula, oh baby dracula, baby dracula..Your romatic notion
won't hide your pale complexion
or vulnerability.....
And it hurts to know you
won't be the one acception....
eyes of philosophy...
Just let go.....This beating of my heart
it fell to peices,
eaten cold....
he never did what was told..
This baby sucked me dry
he failed to make it turn to stone
he took his blood and he went home...baby dracula, a baby dracula, oh baby dracula, baby dracula
