How to Say Goodbye

Paul Tiernan

Living isn't quite the same
You said to me, it's runnin' away.
If you're scared or tired of what you're scared of
Why should you stay
You love to say goodbye
And always counted all the time
'til he was free
to get up and leave
to learn how to breathe
again...

Slippin' out to have a cigarette
with someone else that he'd never met
Ask her if by the way would you like to
run away and try to forget
Just not to stay
To leave without saying why

To get up and go
To catch the last train
To get in some car and drive out again
To never come back this way
Left to say:

goodbye
so long
farewell
au revoir

goodbye
so long
farewell
au revoir
