# Happy With That

## Kelly Willis

It's no good to lose heart, it's no good to lose sight
It's no good to have nowhere to go that feels right
You trust me on that one, you sure shouldn't try it
And you sure shouldn't let yourself get right inside itIf I could be you, I'd be happy with that
My regrets would be few and my future not black
Yeah, I could be happy with thatIt's no good to get numb, it's no good to get tight
It's no good to wake up and then find you're alright
No, you don't get off easy, well you can't escape it
You wouldn't believe just how long you can take itIf I could be you, I'd be happy with that
My regrets would be few and my future not black
Yeah, I could be happy with thatSometimes life can be hard when you give love
And no one will take itIf I could be you, I'd be happy with that
My regrets would be few and my future not black
For a minute or two, walk in some other shoes
Yeah, I could be happy with that
