Top Down

Too \$hort

How freaky can you get to a long fat dick

Hella freaky like I said to a song that hit

I'm the dirty rapper Too Short, the triple X

Run up in the pussy, rub the nipple nextBitch, which is worse? My bark or my bite

You heard about me and now I'm fucking you from dark to the light

You must of thought I got nicer talking about Heiser

I'm an old dogg and old dogg's get wiserCaught up in the game, got ya thinking while your doing this

You never did this, sucking on a big dick

What bitch? You better check the size, and recognize

When I'm between your thighsShit, I get hard from the sound of a kid rum

Riding down the strip with your diamonds and [unverified]

Shiny bald head catching sun rays

Smashing down the strip going backwards down runwaysFour eighteens with the zues and the zapto

Sounding like I'm riding out a concert at a rap show

Hit a back street and put the top up

Stopped at the light see some hoes watch 'em jock usI'm so roll with my electric top

Hit a button, ain't gotta get out, fuck with nuthin'

Let the top just fold up and lay down

Slamming hard passing by the schools and the playgrounds

Everybody knows when Short's in town

'Cause I keep the beats thumping hella-hard with my top downDrop the top

Just drop the topWe call 'em rags, you call 'em drops

Whatever you call it just drop the top

We call 'em rags, you call 'em drops

Whatever you call it just drop the topNine albums out, ain't changed my talk

A thousands hoes walked on I'm still a dogg

Ain't changed nothing but the hoe that I'm fucking

Still riding through the hood all the homies say "Was [unverified]"Give me my props 'cause I always rock

And I still gets cock when the fine hoes jock

Still smoking Indo getting burned out

Still got the orange juice bottle full of gin 'bout to turn outA show, a hoe smashed back to the O

Put them bitches on my beeper then pull some mo'

'Cause I bump more hoes than acme

I guess you bitch can't learn that you just can't mack meI'm off of Gin and Juice don't even introduce

If you ain't fucking back up 'cause I'm free to choose

I want some pussy that could make write a freaky tale

Drawls back, bootie cracks, bitch in a hotelJust to say you got some Too Short dick

You wanna show some evidence, don't swallow don't spit

'Cause I bust more nuts than a squirrel

And my dick been in pussies all around the worldIf you had a picture of it and you asked the bitch

What's this? I bet you say, "Too Short dick"

I still taunt the fine hoes and get shot down

I say, "Bitch", slam the beat smash off with my top downJust riding with my top downWe call 'em rags, you call 'em drops

Whatever you call it just drop the top

We call 'em rags, you call 'em drops

Whatever you call it just drop the topWe rode the AC transit bus, selling joints for a dollar

Smoking angel dust on the way to a house party

A maybe deluxe slanging Too Short tapes making some bucks

Looking out the window at the Mustang and Falcon crewAsking myself, "How can you?"

Roll like the Giants down the foothill strip

With beats thumping top down bumping a bitch

Shit I had to have drop didn't care, if I had a VolkswagenPick up the beat, had a hoes flagging

Siding with the top down, lit like a lamp

Blowing out the amp, trying to bump a tramp

Most niggers couldn't afford to have a drop top

So they got they shit cut at the chop shopCouldn't tell niggers nuthin' way back then

A lot of niggers died or they went to the pen

Couldn't even see the homie Short Bubble

Bank get fat and my whole account doubleWhen I walk in a club bitches say, "Oh God is that you Todd?"

Me and my homies just who ride

And take advantage of a life we never had

Fuck eating cheese sandwiches, broke, living bad

I'm a do it for my homies that's there to lock down

Ride with my beats slamming top downDrop the top

Just drop the top

I got my top downDrop the top

Just drop the top

I'm just rolling with my top downWe call 'em rags, you call 'em drops

Whatever you call it just drop the top

We call 'em rags, you call 'em drops

Whatever you call it just drop the topBeyotch
