

# Make Em Purr

## Sage Francis

I was a lot more comfortable being vulnerable and open  
When I was younger and it wasn't clear if I was or wasn't joking  
But so much is broken, just like fuck it, the fix is in  
If i can't hide in plain sight anymore I'll just stay hidden  
It's been a minute since I left this domicile  
No need to change my outfit, I rock it like it's going out of style  
It's not in style? Ain't no one here to tell me otherwise  
It gets more difficult to stay inside during the summertime  
But most of the time it's just like any other time  
Avoid personal interaction and human touch, shut the blinds  
It's been a while since I left this bachelor pad  
I need to go to the market soon cause the food is going bad  
The food is bad. I found it's difficult to just cook for one  
With healthy recipes, well, depending on what book they're from  
If you want to eat healthy you gotta dirty some dishes  
The frozen dinners quickly ready to serve and it's so delicious  
It's not delicious, it's disgusting, but it satiates the hunger with a quickness  
And hey, at least it's something, at least it's something  
At most it's nothing, fuck's wrong with me? I don't know, I'm just adjusting  
It's been a month since I left this cabin  
The doctor was worried about a fever and other difficulties I've been having  
She called me on Christmas, that was my gift  
She was worried I might die, I said "I might die? No shit"  
It's been forever since I said something that I can't wiggle free from  
If there's anything I cherish in this self-inflicted prison, it's freedom  
Comes at a cost so I'm private to a fault til I default  
On the loan for home, it's actually more like a vault  
No one knows the combo but little old me  
The head honcho, the holder of the key  
Alone, but never lonely  
It's been a millennia since I left this dominion  
Been in the company of any women  
At least I got my kittens  
Spent more cash on my cat than I did myself  
When he stopped eating, I took him to the vet so they could check his health  
They put a feeding tube into his neck  
I said "Please let this work cause if it doesn't I got nothing left"  
I didn't say that, but they saw that. Cat had my tongue  
I didn't speak at all, they told me to call back

What, it wasn't weird I did nothing but stand right there?  
With a "fix this, money's no object" type stare  
It's been a year since I stepped into anyone else's private quarters  
I've been busy self-diagnosing disorders  
First world problems, yeah, USA, number one  
Top of the world, I'm in a tux and cummerbund  
Welcome everyone to the party of the century  
It's sure to be one for the books, no doubt, medical ones especially  
My 20's were a roar, my 30's were a blur  
My 40's, I'm not so sure, but I'mma make 'em purr  
My 20's were a roar, my 30's were a blur  
My 40's, I'm not so sure, but I'mma make 'em purr  
My 20's were a roar, my 30's were a blur  
My 40's I'm not so sure, but I'mma make 'em purr  
And I'mma make 'em purr, but, but I'mma make 'em purr  
I'mma make 'em purr
