

Please Stay

Mindy Smith

Love is a heartache
You live, you learn it
Take what you need from me
You have won my favor
Yours is a brighter love
A soul on fire
My inspiration
You take my spirit higher
So keep on dancing through my dreams
Don't wander far from me
Somebody tries to steal you away
Please stay
If I woulda lose this
I don't know what I'd do
It's hard to imagine
A life without having a love so true
Keep on dancing through my dreams
Don't wander far from me
Somebody tries to steal you away
Keep on dancing through my dreams
Don't wander far from me
Somebody tries to steal you away
Please stay
Please stay
