Tarpit

Golden Smog

Hey, what's bubbling down under there?
Why is it screaming what's unfair?
Please excuse it for getting out
Let the shellfish swell inside
How should I know? Watch it squirm
It's asking me words that I learnedStay inside for me or space
Trip me in a sprinkling gray
Stay and take my fateThought I knew you, stuck out my hand
Didn't wish I could understand
It's a twisted feeling, its there and bold
It's time to burn out, hope I score
Wait for me there, dash and run
To watch this with the lanternStay inside for me or space
Trip me in a sprinkling gray
Stay and take my fate
