

Only a Miracle

[Kenny Loggins](#)

I've always said that I believe anything can happen
Lately I've been wonderin' if that's really true
For a boy, time can be a lovely dance
Then suddenly the music can fade
Leave the man alone and dreamless Till he only sees that he's used up all his chances after all
'Til now only a miracle could do to save the man I've turned into
Won't somebody let me know, where's my miracle Love, it always seemed so easy
Just like a child who plays with imaginary friends
I could see the face of someone I believe
But only in the words of a song
Then she came along and got me dreamin' That's when you began and when I held you, I held a miracle in my
hands
'Til now only a miracle could do, I've found the boy I was in you
You've come to let me know there are miracles
