

(L)mirl

Deftones

I don't miss you
I don't care where you are now
you're a ghost to me
left with my taste in your mouth take it away somewhere new
I've been used to it
this body is here but i'm bound
when i reawake ill reawake in the waves
in a new realm
test the strain my fail?
you might just get used to it
and you'll smile (smile) and ill sail along these waves (hey)
slip into the calming waves (hey) your known hex
that you strained my world
so i put this gun to my head
and i smile (smile) sail along these waves (hey)
slip into the calming waves (hey) deep into the calming waves
we have created now a god now i'll reawake me
full of myself
ill grow out of my shell slip into the calming waves
deep into the calming waves
slip into the calming waves
deep into (hey) right now
bear witness
