

We Need a Word

We Are Scientists

Lying awake last night
Trying to make out life
In a whisper
In a whisper I know it's late but I
Still wish you'd speak your mind
We need a word
We need a word If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this, you want this I'd like to keep in mind
This could be my last try
What if it were
What if it were Don't go on wasting time
Misreading blatant signs
You should be sure
You should be sure If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this, you want this Don't keep quiet
You know there's more to talk
So speak for yourself If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this, you want this If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word
If you want this (you want this)
You need to have a word

If you want this, you want this
