Freak Parade

Utopia

I never was bothered by bad dreams
They never made me afraid
But then I never did dream I'd wake up
And find me in the freak paradeI guess, I had to find out the hard way
I shouldn't have been so proud
'Cause here I'm the main attraction
Of every giggle in the crowdSo I gotta take my place in the freak parade
See my face in the freak parade
Get of the sidewalk!In a world full of freaks
You can creep, you can crawl
But the world's biggest freak
Is the one with no ballsYou know you shouldn't poke fun at strangers
Or pity their case at all
'Cause there are lots of friends and lovers
That take it kind of personalYou might appreciate our position
Don't laugh at our freaky ways
You might find yourself tomorrow
Marching in the freak paradeYou better
Take your place in the freak parade
See your face in the freak parade
Get of the sidewalk!In a world full of freaks
You can creep, you can crawl
But the world's biggest freak
Is the one with no balls
