

No Tomorrow

(Hed) P.E.

Advisory - the following lyrics contain explicit language:

The Awakening, like a fire was running wild
same thing whole different era its time we ride
Move em out there do you revel in the skies
its not the way that she moves
its about that look in her eyes
they cant stop you
from turning water into wine
like the system poisoning the masses from the inside out
the change is coming that you heard about
the revolution's underway now move movewhen it all goes down
you know I wanna be right there
and when your walls come down
you know I wanna be right there
on the front line
fighting on the right side holding up the front line
like there's no tomorrow
fighting on the right side holding up the front line
like there's no tomorrow I'm a renegade cant be fucking around with my life
I'm a break you show you how real rebels we ride
Take a break and open your eyes and realize
its not the destination its about the journey we ride
they cant stop you
from turning water into wine
like the system poisoning the masses from the inside out
the change is coming that you heard about
the revolution's underway now move movewhen it all goes down
you know I wanna be right there
and when your walls come down
you know I wanna be right there
on the front line
fighting on the right side holding up the front line
like there's no tomorrow

fighting on the right side holding up the front line
like there's no tomorrow
Stop fucking with me
I won't rest til my enemies rest in peace
yeah stop fucking with me
I wont rest til these motherfuckers rest in peace
all my enemies die and
rest in peace
all them haters in the house can
rest in peace
all you jealous motherfuckers can
rest in peace
yeah and all you bitch ass niggas can suck my dick when it all goes down
you know I wanna be right there
and when your walls come down
you know I wanna be right there
on the front line
fighting on the right side holding up the front line
like there's no tomorrow
fighting on the right side holding up the front line
like there's no tomorrow
there's no tomorrow
there's no tomorrow
