

# Eraser (Big Beige / 4th St Demos)

## Coheed and Cambria

I'm just a toy waiting for  
You to claim me  
I want to make  
Just make you happy There's no future I see  
With you in it  
I just don't fit  
Not the right plastic Oh, I'm not mad  
Lean on me, man Oh, I'm not mad  
Lean on me, man How many times  
I gotta listen to your mouth?  
Go! How many times?  
How many times?  
How many times? Turn the clocks back  
To the way things were  
I never wanted to be this me (erase, eraser)  
Show me back then  
The kid before the man  
I don't think this me is who I am Oh, middle aged  
Bring me a crisis  
What am I worth?  
Does the truth hurt? Identity, write the tales of disaster  
Ease on the clutch  
Who gives a fuck? Oh, I'm not mad  
Lean on me, man Oh, I'm not mad  
I'm not, I'm not, I'm not Turn the clocks back  
To the way things were  
I never wanted to be this me (erase, eraser)  
Show me back then  
The kid before the man  
I don't think this me is who I am Ha ha ha! Turn the clocks back  
To the way things were  
I never wanted to be this  
I never wanted to be this  
I never wanted to be this me Turn the clocks back  
To the way things were  
I never wanted to be this me (erase, eraser)  
Show me back then  
The kid before the man I never wanted to be this  
Just, just erase this

I never wanted to be this  
Just, just erase me
