

I Know How

[Loretta Lynn](#)

Yeah I love him likeshe wants me to and I know how
And it's my duty to know his moods when he gets moody
Yeah I give him wha she needs and that's why I'm his right now
Yes I know I love him right 'cause I know how, yeah I know howYes I know how to hold him when he needs
holdin'
And I know how to kiss him when he needs kissin'
I understand his every wish and his every wish is mine
Yes he knows I love to love him and I know how, yeah I know howYes I know how to hold him when he needs
holdin'
And I know how to kiss him when he needs kissin'
I understand his every wish and his every wish is mine
Yes he knows I love to love him and I know how, yeah I know howYou better believe I know how
