

# Every day

[Aaron Neville](#)

Every day along about noon  
Oh, how I'm dreaming of the day that I'll be home soon  
And every day along about one  
Oh, how I remember how we used to have fun And every day along about two  
Whoa, how I'm so lonely in a world so blue  
And every day now along about three  
When I'm dreaming of a day that I'll be free And every day along about four  
But I cry, whoa I cry, till I can cry no more  
And every day along about five  
I'm writing you a letter with a tear in my eye And every day whoa just about six  
Whoa, how I remember how we used to kiss  
And every, every, every day now oh how it reminds me of you  
Whoa, I wanna tell you, please listen to me  
'Cuz I love you, love you, I love you
