

# My Day

## Tarrus Riley

Give thanks to life

Today me rise like the sunrise  
Me bright and me upright  
No one can bruk my vibes  
And me no care who wanna fight  
And who wanna criticize  
I'm on a higher height  
So you can say what you want to  
And do what you want to  
It's no concern to me  
Because me have my own vision  
Me deh pon me own mission  
To rule my destiny

Oh, it's my day to do anything I want to  
It's my time and I'll use it any way I want to  
It's my life and I'm responsible for every action  
It's all mine, my day, my time, my life

I beg you easy no, gimmi some reason no  
And don't invade my space  
I'm in a different place, different phase  
Moving on my way  
So if you feel like a champion  
Then nothing can go wrong  
This one is your song  
Put away your troubles  
Put away your worries  
Help me sing along

Oh, it's my day to do anything I want to  
It's my time and I'll use it any way I want to  
It's my life and I'm responsible for every action  
It's all mine, my day, my time, my life

Feeling alive, feeling a vibe and nothing can stop me  
I don't care what they think or what they say about me  
Look out world, here we come, up and running

And all I'm saying is

It's my day to do anything I want to  
It's my time and I'll use it any way I want to  
It's my life and I'm responsible for every action  
It's all mine, my day, my time, my life

Give thanks for life
