Legions

Savatage

A call from the night
Metal storming masses
In the lies battle cry
Screaming through the nightOh no summon up the legions
To do our deeds
Our legion's needs
Are growing every dayWe're comin' out tonight
We come from the darker light
Join your hands and pray
Maybe you can all be savedLegions of the night
Legions of the night
Legions of the night
Can they hear your battle cry?Cry out but what does it matter?
There's no way to escape
The hold we have on you
Controlled by the master
Infiltrate penetrate
Your little precious mindsWe're comin' out tonight
We come from the darker light
Join your hands and pray
Maybe you can all be savedLegions of the night
Legions of the night
Legions of the night
Can they hear your battle cry?Scream loud
Let the masses hear you
Bangin' hard 'cross the ground
Shatter the darkest lights
Heed the master's callin'
Congregate celebrate
The power you obtainedLegions of the night
Legions of the night
Legions of the night
Can I hear your battle cry?
