

# Smack

## Ugly Duckling

Rubber headed motor junky, run me down  
And try to stomp me  
Throw my life away, and I'll be worthless  
Just like you  
Somewhere now a baby's crying  
Down the road his mother's dying  
Shot a line and blew her mind and  
Now she's turning blue  
Don't you throw your life away  
Just wait until another day  
Don't you throw your life away  
'Cause baby I can feel it  
Don't you ever compromise it  
Don't you even realize it  
Don't throw your life away  
'Cause baby I can feel it, now  
Trip and fall, I'm sure you all can tell me  
What is on the wall

Behind the liquor store where you get  
Smacked up all the time  
Perfect little life you wasted  
Overdosed and that death you tasted  
Scared you back into yourself  
And now you walk the line  
Don't you throw your life away  
Just wait until another day  
Don't you throw your life away  
'Cause baby I can feel it  
Don't you ever compromise it  
Don't you even realize it  
Don't throw your life away  
'Cause baby I can feel it, now  
Life away  
Life away  
Life away
