Make It Real

The Jets

Tonight it's been a year
We met each other here
Here I am all alone
As thoughts of you go onHear me cryin' out to you
You said, "Never, never would I leave"
Here's a tear from me to you
And maybe it will make you hear meI loved you
You didn't feel the same
Though we're apart
You're in my heart
Give me one more chance to
Make it realIn a dream you are here
You smile and hold me near
And in my heart I'll pretend
That you are here againHear me cryin' out to you
You said, "Never, never would I leave"
Here's a tear from me to you
And maybe it will make you hear meGive me one more chance to
Make it real
