

Thank U

Claude Deuce

I bet you're surprised, uh
To see me waiting up for you
There's something I gotta say
Never in my life
Could I have ever imagined that
That love was ever gonna feel this way

And I never ever felt so special
Never knew something good be so true
And I'm so much better
Pray for forever
Baby I owe it all to you

[Chorus]

I wanna thank you
For staying out late all the time
While you were out getting yours
Boy I was getting mine
I wanna thank you
For the times you cheated on me
Cause I almost loved you forever
Never would have found someone better

I wanna thank you, thank you
For loosing me
I wanna thank you, thank you
For loosing me

Don't look surprised
You really think I was so blind
I wouldn't notice the signs
And it was you, uh
Who gave me all the time to find
All the love that you ain't giving me no more

And I never ever felt so special
Never knew it could feel so good inside
I'm so much better
Pray for forever

So before I say goodbye to you

[Chorus]

I wanna thank you, thank you
For losing me (thank you baby)
I wanna thank you, thank you
For losing me (oh)

I've never been so sincere
Cause all the things you did
Made everything so clear
Baby I understand
I wanna find a real man
If it wasn't for you
I wanna thank you
For leaving me alone at night
I wanna thank you
For not coming up with better lies
Cause he loves me better
Than you could ever
And I owe it all to you

[Chorus: x2]

I wanna thank you, thank you (I wanna thank you, thank you)
For losing me
I wanna thank you, thank you (I would never love him)
For losing me
