

# Vomit The Soul

## Cannibal Corpse

Grotesque, crippled, carved up carcass  
Evil controlling my mind, the fear of dying expired of life, to vomit the soul  
I am dead within my selfThe end a beginning to a new life in hell  
I am your path to ever-lasting pain mass extinction of the human population  
Son of the devil the evil incarnation  
Maniacal mass murderer mutilating mortals,The child born unto evil, trapped within the statue of flesh  
Vipers travel through bodily orifices,  
Blessed by the Devil under inverted crosses,  
Religious ways, lies controlling mindsI walk among mortal beings, but I have died  
Excavating graves I search for decay packs of flesh driven zombies ready to feast  
I suffer forever living only to dismemberOpen season on humans, laughing I watch them die, they bleed so  
easily  
Their blood flows through my body, I need to taste the flesh exposing pulsing arteries  
Removing vital organs  
Not stopping till you've died  
Puts from your eyes carnal ways indulge in the gore  
Slaughtered you lie in a pile of warm gutsConstricted corpusles coagulating blood my drug a slave to its taste,  
Reincarnated to human form, creating a race of immortal beings,  
Rot away dead bodies, set a flameSearing flesh, broken necks  
You can't kill what already dead  
De-evoulution, hunting for life  
Cannibalism, immortality rip and slashA society of mass murder  
Bleeding slow  
I take away your life, and leave you lying cold, decapitated body  
Searching for its headAnticipate apocalypse, rising dead dismembering  
Hacking limbs bleeding, cracking ribs  
Torture us  
Blessed by the devil, under inverted crossesReligious ways, lies controlling minds  
I walk among mortal beings, but I have died  
Excavating graves  
DesolateEmpty hollow corpse, desecrate forced  
To eat your flesh  
Extracting purity violat  
Twisted bodies, rot away
