Django

Grant Green

Get one thing clear, first you live in fear, then you disappear, and that unity
Shift gear, and i, try to stear, i see a tear, you're so fuckin insincere
Django,
You drag your coffin around
You drag your coffin around
You drag your coffin around
Django,
You drag your coffin around
All around town, just like a dead man does
Just like a dead man does
Just like a dead man does
Just like a dead man
Dead man
Dead man
Dead man
Dead man
Gonna have some fun, so you belong, cocaine run, until you watch the fuckin sun go
Underground, and the never found, and the drugs are around, gotcha tired fuckin beyond
Django,

You drag your coffin around
You drag your coffin around
You drag your coffin around
Django,
You drag your coffin around
All around town, just like a dead man does
Just like a dead man does
Just like a dead man does
Just like a dead man
Dead man
Dead man
Dead man
Dead man
Get one thing clear, first you live in fear, then you disappear, and that unity shit
Shift gear, and i, try to stear, i see a tear, you're so fuckin insincere
Django,
You drag your coffin around
You drag your coffin around
You drag your coffin around

Django,
