

Fire

Orianthi

Standing on a mountain side
Watch the sun go down
Nothing here except the cold air
So I'm laying on the ground
I could stand here forever
Now the sky is red like blood
I know the devil's waiting
And he's waiting for the lightHey, I'm gonna light my fire
Hey, I'm gonna light my fire
Hey, I'm gonna light my fire
Hey, I'm gonna light my fireUp here in the attic
And my toys are on the floor
I can hear somebody scratching
Scratching on my door
When I go downstairs to open
I see who that could be
Well I could hear you breathing
Now the devil's hear with meHey, I'm gonna light my fire
Hey, i'm gonna light my fire
Hey, I'm gonna light my fire
Hey, light my fireI was talking about a good song
Like I was playing with fire
I didn't know that it would take me down
I thought it'd take me higher
Take me higherHey, I'm gonna light my fire
Hey, I'm gonna light my fire
Hey, I'm gonna light my fire
Hey, I'm gonna light my fire
