

# Skeletons

## The Sound

There's a gaping hole in the way we are  
With nothing to fill it up anymore  
No flesh, no blood, just broken bone  
A frame to hang our lives from  
We're living like skeletons Won't someone wake the dead in me?  
Won't someone shake the dust off me?  
Give me water, give me bread  
But don't give me up for dead  
We're living like skeletons
