I Adore You

Melpo Mene

Lost in a daydream of blue
And I feel so free
And then It's like I fall from the sky
Everything that I see is you
And you should know that I'm
Thinking about what you said
When you held my handOh I adore youNow we are older and
Things disappeared somehow
And I was thinking that maybe
We'd stand a better chance If we met today
I find myself talking to sharks
On my way to an island and stillI adore you
I adore you
I adore youI was young I was old
And we were in we were out
I wanna see I wanna see it all
I wanna die I wanna die
Sweetheart sweetheart
I thought I saw I thought I saw a light
See it now see it now
