

# Skinny Dippin'

## Little Big Town

Let's go, let's go, let's go, let's go  
Let's go skinny dippin'  
Just like we did before  
Stars are out to shine  
The moon is hanging on  
In the dark no one will ever know  
Come with me, run with me down to the sea  
Worry 'bout nothing, have fun with the beat  
Toes in the sand, and we're feeling the breeze  
Ain't nothing better than feeling this free  
Kiss me now, and girl come on let's goCome on baby, it's been so long  
Since we've done something that might be wrong  
Ain't no one left inside  
Let's skinny dip tonightGive me one just sip till we both feel alright  
Let your inner ambitions slip on outside  
I'll pull you closer and keep you warm at night  
Come with me, run with me down to the sea  
Worry 'bout nothing, have fun with the beat  
Toes in the sand, and we're feeling the breeze  
Ain't nothing better than feeling this free  
Kiss me now, and girl come on let's goCome on baby, it's been so long  
Since we've done something that might be wrong  
Ain't no one left inside  
Let's skinny dip tonight  
Let's skinny dip tonightCome with me, run with me down to the sea  
Worry 'bout nothing, have fun with the beat  
Toes in the sand, and we're feeling the breeze  
Ain't nothing better than feeling this free  
Kiss me now, and girl come on let's goCome on baby, it's been so long  
Since we've done something that might be wrong  
Ain't no one left inside  
Let's skinny dip tonight  
Come on baby, it's been so long  
Since we've done something that might be wrong  
Ain't no one left inside  
Let's skinny dip tonightLet's skinny dip tonight
