

Wolf To The Moon

Rainbow

[Blackmore/White/Night]With a rebel mind and a gypsy heart

No place could ever be home

Drawn like a wolf to the moon it calls to my soul

Ain't got no woman, they just tie me down

Freedom is my only friend

I get a feeling destiny lies 'round the bend

One for the road

Slave to the highway

King of the road

Chasing the sun as it sets in the sky

Swear that I'll catch it someday

Lights of the city behind are fadingg away

Makin' my way through the names on the map

No point in feeling alone

As long as I ride the open road I'll always have a home

One for the road

Slave to the highway

King of the road

My future is calling a cry in the wind

Leading me out of my past

Got no destination but know that I'm getting there fast

Crossed many miles got so many to go

Each one calling my name

Won't settle down and you know I'll never be tamed

One for the road

Slave to the highway

King of the road
